

Meet the next generation in account reconciliation

Fluence is the only financial close and reporting solution purpose-built to meet the account reconciliation needs of today's mid market companies.

The value for finance & accounting

CFOs & Finance VPs

Trust your numbers knowing they're reconciled with accuracy and transparency.

CAOs & Controllers

Reconcile all your accounts with confidence, on time and every time.

Accountants

Put an end to plug figures, endless manual work and other reconciliation pains.

Say goodbye to pains and plug figures

Fluence puts an end to the reconciliation pains you know too well:

01

Data errors, integrity issues and other risks

02

only reconciling some of your accounts

03

Unsupported plug figures

04

Time-consuming reviews and transaction matching

05

Missed deadlines from holding up the close

What finance leaders say about reconciliations:

45%

Critically vulnerable to data errors

42%

Time involved is at a critical level
