

# Financial Consolidation

Deliver consolidated financial statements in record time with out-of-the-box consolidation models, drag-and-drop workflow, and a cloud calculation engine that scales with your business. Our customers go live in weeks, close their books in days, and report intelligence in real-time.

## ✓ Easy to Use

Fluence delivers an Excel-centric experience with a modern, intuitive user interface. A drag-and-drop workflow builder and in-app collaboration and communication functionality, make it simple to get the work done.

## ✓ Fast Time to Value

With Fluence, you're up and running within weeks, not months. With a wide range of pre-built calculations and reports and out-of-the-box functionality that dynamically adapts to your dimensions, implementation is quick and painless.

## ✓ Low Total Cost of Ownership

Because Fluence is a no-code, pure-cloud solution, finance teams no longer have to rely on costly consultants or scarce IT resources to manage and maintain their consolidation engine.

**When it comes to financial consolidation, the stakes are high. Producing accurate, timely financial statements is paramount.**

For high-growth companies, stand-alone spreadsheets are risky and limiting and legacy consolidation solutions are rigid and complex.

**Enter Fluence ... the only modern, easy-to-use financial consolidation solution built by accountants for accountants**

**“With most software, we almost needed a PhD in coding. We needed something more intuitive and flexible. Something our accountants could own, not be held hostage by IT.”**

**Marie M.**

VP & Corporate Controller

# The Fluence Difference

## Easy to use

Workflow automation and collaboration capabilities

## Familiar

Low learning curve due to familiar Excel interface

## Finance owned / No code

Finance autonomous and less reliant on IT, partners and vendors

## Adaptable

Flexible and agile to quickly and easily adapt to changes in business requirements

## Born in the Cloud

Efficiency across all critical capabilities leads to faster closing times

## Confidence

Data transparency and auditability gives finance trust in the numbers

## Built-in Consolidation Calculations

Purpose-built to handle complex requirements such as:

- Acquisitions
- Cash Flow
- Multi-GAAP Reporting
- Partial Ownership
- Multi-Currency
- Intercompany Balance & Invoice Matching

“The difference with Fluence is the user-friendly interface. It is so easy to create a grid or a custom report.”

## Martin Langlois

CPA, Chief Financial Officer  
Sani Marc Group

Put control back in the hands of finance and accounting teams so they can close faster, report with confidence, and do more with less.
