

BROCHURE

Is SAP putting your financial close at risk?

MEET FLUENCE. EVERYTHING YOU WANTED FROM BPC AND MORE.
IN 60 DAYS. AT HALF THE PRICE.

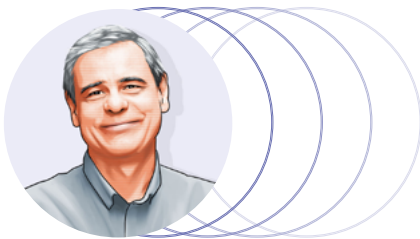

It's time to deal with BPC's end of life

A better solution. Half the price. In 60 days.

Still deciding how to handle consolidation and reporting after BPC? SAP's constantly changing roadmap hasn't made it easy, and now they're:

- ending BPC support for Microsoft in 2026
- recommending customers migrate to Group Reporting on S4/HANA
- continuing to charge maintenance fees for BPC upgrades you'll never see

There's a better way. A powerful, affordable, modern SaaS solution. Quick migration without the strain on finance or IT. Welcome to Fluence.

THE FLUENCE DNA

Meet Hervé Capo, the architect behind BPC and more

Nobody knows how to build the next generation of consolidation software more than Fluence's VP Product, Hervé Capo.

Over 35 years and 1,000 implementations, Hervé designed and developed the consolidation engines for pioneering vendors including Frango (IBM Controller), OutlookSoft (SAP BPC), Longview and Clarity Systems.

If anyone can give you more than BPC, it's Fluence.

THE FLUENCE DNA

Does it make sense to wait?

The more you put off upgrading from BPC, the more it's going to cost you:

- Added drains on finance, IT and 3rd party consultants
- Costly maintenance fees without the support and upgrades you need
- Security, compliance and data integrity risks

There's a better consolidation and reporting solution for you. And you can have it up and running in 60 days.

THE MIGRATION CHALLENGE

Costs and complications you don't need

Even if you're already an SAP customer, moving to Group Reporting means you'll have to:

- buy additional software for multiple ERPs or to fill the feature gaps in Group Reporting
- adopt S4/HANA across all your business entities
- endure months-long implementations and steep learning curves for your team

Group Reporting isn't going to solve your problems, but create more headaches. You deserve more.

You deserve a better solution

Finance Owned

Out-of-the-Box Functionality

Enterprise Class Consolidation

Deploy in Weeks, Not Months

THE SOLUTION

More than a BPC replacement

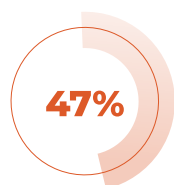

From the architects behind IBM Cognos Controller, OutlookSoft/BPC and more, Fluence is an evolutionary leap in SaaS consolidation and reporting software:

- ✓ **Out-of-the-box** - built-in templates, models and calculations to implement in weeks
- ✓ **Finance owned** - intuitive, no-code admin to set up and maintain without relying on IT
- ✓ **Excel based** - familiar, full-featured Excel for inputs, exceptions and self-serve reporting
- ✓ **Fully automated** - drag and drop workflow automation, from data loads to reporting
- ✓ **Controlled & transparent** - role based permissions and record-to-report audit trails

THE CUSTOMER RESULT

Half the price. Live in weeks.

Between maintenance, subscription, consulting and migration costs, over the next 5 years Fluence will save you:

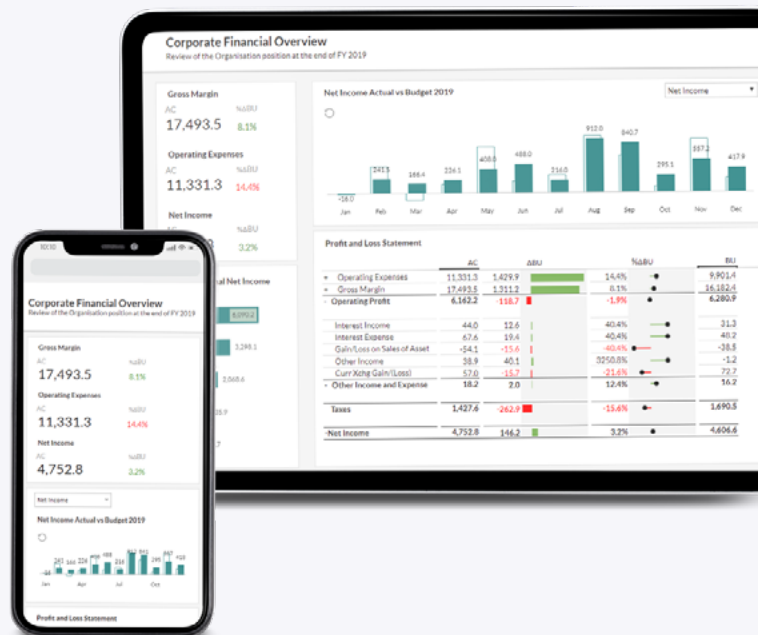

What you're already spending on BPC

Group Reporting migration costs

Group Reporting migration time

HOW IT WORKS

Quick and easy BPC migration

Fluence's automated migration tool duplicates all your BPC data, metadata and rules:

- ✓ **Dimensions and hierarchies**
- ✓ **Attributes in all your dimensions**
- ✓ **Mapping tables**
- ✓ **Models for all facts**
- ✓ **Opening, conversion, calculation, validation and intercompany rules**

Better still, enjoy flexible, self-serve reporting unimaginable with SAP. All in Excel. For any business audience.
